Professional Summary

Senior Frontend Engineer with 7+ years across web and mobile development. Builds React, Next.js and TypeScript dashboards and marketplaces, focusing on maintainable architecture, rendering performance and reusable interfaces. Experienced in delivering multilingual products alongside design and engineering teams.

Technical Skills

Languages & Frameworks: React, Next.js, TypeScript, JavaScript, Astro, HTML, CSS

Architecture & Data: Frontend Architecture, Redux, AG Grid, REST APIs, WebSocket, Internationalization

Quality & Delivery: Performance Optimization, PWA, Accessibility, Jest, CI/CD, GitHub Actions

Professional Experience

Namarang | Senior React Engineer / Tehran, Iran — Jun 2025 - Present

- Refactored React dashboards toward a feature-based architecture; reduced unnecessary re-renders by approximately 90% (estimated).
- Added lazy-loaded routes and redesigned the interface with shadcn/ui, using AI coding agents for refactoring and feature development.

BeyondGrow | Senior Frontend Engineer (Astro) — 2023 - 2024

- Delivered the BeyondGrow product website with Astro, from frontend architecture to production launch.
- Built English/Thai localization, light/dark themes and reusable UI components; optimized assets and responsive layouts for performance, accessibility and SEO.

Youtopin | Senior React & Next.js Engineer — 2021 - 2023

- Built a React, Next.js and TypeScript dashboard for tour leaders to manage travel operations.
- Optimized rendering and data loading in data-heavy views; developed responsive forms and multi-step workflows with product and design teams.

Simkhan | Senior React & Next.js Engineer / Tehran, Iran — 2019 - 2020

- Redesigned a SIM-card marketplace with React, Next.js and TypeScript, including search, listings and purchase flows.
- Built advanced number/operator filters, improved data fetching and PWA functionality, and added automated tests for key workflows.
